Catering Order Requests
All requests for orders must be placed with the catering coordinator via email, phone call, or in person. Requests placed through email are not guaranteed until a catering coordinator confirms the order. Once confirmed, a catering coordinator will make contact to go over details including scheduling, planning and will gladly offer recommendations, and discuss payment options as necessary. A catering price quote will be provided to you 7 days in advance of your catered event, and charges will be applied to your budget code within 7 business days after the event. To ensure a successful event, please reserve your event date as soon as possible.

All catering orders must be placed at least one week in advance. For events exceeding 300 guests or events with menus designed by the chef, and not selected from our online catalogue, the order must be placed at least two weeks in advance.

A completed order will include menu choices and an estimated number of guests.

Guaranteed Minimum Guest Count
A guaranteed minimum number of guests must be provided to the catering coordinator by noon (12 p.m.), three business days prior to the event.

If your order is placed with insufficient notice, App Catering may be unable to accommodate your needs and you may be subject to additional charges.

All alcohol service will be provided by Appalachian Food Services bartenders.

Bar service will be provided for $150 for up to 3 hours of service for one bartender, additional operational hours and bartenders will be charged an hourly rate.

Alcohol pricing will be based upon consumption.

Alcohol provided by an outside vendor will be charged a corkage and, or service fee depending on the event size.

Special Dietary Needs
It is essential that clients alert the catering coordinator of specific dietary needs during menu planning. App Catering is proud of its ability to accommodate guests, but in the event a dietary need cannot be met, App Catering will make every attempt to find an alternative solution.

A catering coordinator can reasonably guide clients in booking events and making menu selections which can accommodate their guests. In most instances, food allergies and intolerances can be managed, such as vegan, vegetarian diets, food allergies, or intolerances.
